Name of the Student	Hemaraj A/L Rajan
ID of the Student	243UC247BQ
Name of the Company	JJ Security Sdn Bhd Subang Jaya
Period of Training	3 Months
Name of the Company Supervisor	Tc Sivanesan Tamilselvam
Name of the Faculty Supervisor	Wong Keng Tuck
Week Number/Report Period	2
Brief Description of Tasks done during the Week	1. I have updated my progress talk with my company supervisor on the current visitor management system project receive further additional briefing on the status of the project. In addition, I also attended the site visit to one of the project sites to see the boundaries of the locations and how the system can be implemented there. 2. During my second day, I have created forms page UI for visitors that are both Malaysian and Non-Malaysian that don't have proper documents. These forms URL would be embedded in the QR Code form eventually so that visitors that don't have proper documents can scan the code, fill up details and check in to the places (under guard supervision of course) 3. I have also created Super-Admin specific UI such as Manage Admins and Manage Sites UI and one admin-specific UI which is checkinprocess. In addition, I also have to make sure that each of the visitor check in aligns to only one site. 4. To make sure that the Super Admin can create another admin accounts and assign sites, I have set up the tables in database which are Visitor, Visits, and

	Sites to make sure that each visits are aligned with one site. 5. I have completed the site management module where right now the super admin can add sites which contains the details of the site name and site location.
--	--

Reflections (Problems encountered if any, Reasons for non-completion of planned tasks if any, Lessons learned, Tasks planned for the next week etc.)	No major issues have been faced at this week. While the sites have been connected to visits, further slug creation(for QR Code URL) needs to be implemented. Once the URL has been created, the image need to be further stored in database for persistent refresh.
Remarks from Company Supervisor (if any)	On going.
